brasilsambacongress_japao

Hello everyone, I'm Patrick!

Brasil Samba Congress was born in Rio and has grown into a global event where dancers from all over the world come to experience authentic Samba. Our mission is to elevate dancers, helping them reach their full potential and take the stage with confidence.

But Samba is more than just memorizing choreography. It's about feeling the rhythm, expressing your energy, and creating groove together as one. This event is not just about learning—it's about building lasting connections with top Brazilian professionals and immersing yourself in the true spirit of Samba.

Come feel the soul of Brazil and be part of the new generation of Samba!
I can't wait to see you all!

Bring the Congress to Japan!

In 2024, I spent three days fully immersed in samba at the Samba Congress in Germany, dancing for nearly 20 hours and learning from 17 instructors. Through this experience, I reflected on my connection to dance and began to understand why I, with Asian roots, am drawn to samba.

Wanting to bring this experience to Japan, I found more people willing to support the journey. Now, with all of you, it truly comes to life.

Proceeds will cover instructors' travel and stay, with any surplus supporting samba education in Brazilian favelas and future events. I'd deeply appreciate your support!
